htm (23.02.2010)Re: [wamus] CMC Download: Let There Be Love (The Album) /forums/ fun-some-nights-album--zip-rar.htm (23.02.2010)Wed, 23 Feb 2010 23:59:07 GMTThe all-new McLaren P1™ has been revealed with its first images and we have some exciting news for those of you who have been waiting patiently for some official images. The new McLaren P1™ has the new V8 twin-turbo Vantage™ engine, creating a staggering 720bhp and 700Nm of torque. We first saw a prototype of the new P1™ at the Autosport International event held at the Knotts circuit a few months ago. The new McLaren P1™ is the world's first hybrid sports car with pure electric mode and hybrid mode and is powered by a 3.8-litre twin-turbocharged V8 engine mated to two electric motors; one driving the front wheels and another driving the rear wheels. The all-electric mode utilises the P1's motor system to charge the battery, in much the same way that we saw in the video above. The battery capacity of the P1™ is up to 70kWh with a range of over 300 miles. During the all-electric mode the car achieves an average speed of 55mph. As the McLaren P1™ is 100 per cent electric power for the vehicle comes from a 9kWh battery which provides a total range of approximately 80 miles – a range which is enhanced by regenerative braking. In the all-electric mode the car accelerates from 0 to 60mph in 2.6 seconds with a top speed of 191mph. The all-electric mode also enables the car to be driven for up to 25 minutes using only energy generated from the battery. The all-electric mode of the new McLaren P 82157476af
